Skills JavaScript, Java, React, Redux, Express, Node.js, HTML5, CSS3, Git, SQL, PostgreSQL, MongoDB, Google Firestore, Heroku, WebSockets, AWS, Agile methodology

Projects

WenJobs

Target Job Board Utilizing LinkedIn Connections

[Wenjobs.xyz](https://wenjobs.xyz)

- Implemented scheduled web-scraping server utilizing **Puppeteer**, **File system** and **Node-Cron** libraries to collect job listings from relevant Web3 job sources.
- Currently optimizing job filtering features by implementing **fuzzy search** with cache and hash tables. Plans to transition to **PostgreSQL** database with backend Express/Node server.
- Technologies used to develop this career tools include React, Google Firebase Real-time Database, **Auth0**, **Ant UI**, Express, and Trello for project management, and Figma for Data Modeling.

Brain - Trello Reimagined, In Progress

[GitHub](#)

Kanban Board & Project Management tool

- Utilized **React DnD** to recreate drag and drop effect to mimic trello board. Incorporated **React Bootstrap components** to re-create project task cards and columns. tracking.
- Engineered **REST API** backend to facilitate efficient CRUD operations
- Built using React, Sass, Node.js, Express, and Google Firestore database.

Hair By Loann

[HairByLoann](#)

Cosmetologist Storefront for booking appointments

- Innovating small business web presence through building a responsive and accessible website.
- Utilizing React bootstrap, and **twilio API** to provide a mode of communication for prospective clients and business owners.
- Developed using React, Bootstrap, Node.js, Express, Heroku, and **Google Firestore Database**.

Leadership

Code Fellows - Teaching Assistant

- Mentoring students through lab work and assisting students with daily code challenges. Providing guidance during project week and troubleshooting workspace set-up issues.
- Reviewing data structures and algorithms with students and providing candid feedback on lab assignments

Women Who Code Seattle - Social Media Creator & Seattle Chapter Volunteer

- Spearheaded social media planning and designed weekly posting to promote organizational events and new member outreach.
- Increased online activity and following by over 50% and continuously improving online interactivity through online presence and in-person networking

Education
